## **Virtual Assistant Tell-All eBook on Getting Clients**

Woodridge, IL – February 28, 2008 - Virtual Business Partners is pleased to announce the publication of their new eBook, *The Virtual Assistants Guide to Landing 12 Clients in 12 Months* which has just been released and is for sale on their company web site at [www.virtualbusinesspartners.net/resources](http://www.virtualbusinesspartners.net/resources).

Doreen Patrick, owner and founder of Virtual Business Partners, explains that as a member of various virtual assistant forums, two of the most frequent information requests from forum members are information about how gain clients and what marketing techniques are used to get clients. After having learned from veteran virtual assistants before her, Doreen realized the opportunity to be able to give back to these organizations and its members by publishing her first eBook; a tell-all on how she went from one client to having a successful full-time business within one year with over 12 clients.

Doreen explains, “Giving back to the communities that were an integral part of my business success was something that I have always wanted to do and I hope to be able to inspire other virtual assistants like those that have inspired me.” Patrick plans to release future eBooks and reports designed especially for virtual assistants and may also be adding teleclasses and seminars to her virtual assistant tool kit.
